"Six times the results..." from the Day!

Pictured above are Ed Keppler (left), store manager for S.S. Kresge Co., at 755 West Golf Road, Des Plaines; and Tom Hannon, assistant store manager.

In a letter to the Advertising Director of Day Publications dated September 19, 1968, Mr. Keppler had this to say about the Day:

Dear Mr. Smith

This is just a short note to tell you of the tremendous response we received from our ads in your newspapers.

We have tried different papers around the area and we received six times the results from yours as compared to the others.

The coupon count on a 3 x 10 ad totals 867 coupons on September 4, 1968. This volume, despite the street repairs that have blocked off the main customer access to our parking lot.

We, as an advertiser, are proud to be part of your fine newspapers. They not only give the readers all the local news, but also our weekly specials.

We are looking forward to many enjoyable and profitable years with Day Publications. Keep up the good work.

Sincerely,

E. R. Keppler Store Manager

Maxwell House. Announces

Freeze-Dried

Coffee

Now, an entirely new process called freeze-drying actually makes it possible for you to brew real percolated coffee...without a percolator!

Maxime is an entirely new form of coffee.

Maxim is crystals of real percolated coffee. Concentrated crystals with the power to turn every cup in your house into a percolator!

Maxim is an amazing breakthrough in coffeemaking. It is entirely different from any instacoffee. It is entirely different from any ground coffee. Maxim is, in fact, concentrated crystals of real percolated coffee.

Maxim's secret-freeze-drying-is the result of years of coffee research at Maxwell House. A way has been discovered to transform actual pot-brewed coffee into concentrated crystals Here's how it is done.

Freshly percolated coffee is poured into freezing containers Maxim begins with pots and pots of dark, strong, percolated coffee. This freshly brewed yffee is poured into special freezing containers. Here it is frash-frozen at the peak of perfection, when coffee flavor and aroma are at their break-

Vacuum chamber turns block of frozen coffee into crystals.

After the coffee has been frozen, the ice is drawn off-not by heat which destroys flavor-but by an amazing new vacuum process. It spirits the ice away without losing any of the honest flavor and body of freshly-percolated coffee.

Freeze-Dried crystals that need no refrigeration!

This "ice removal" leaves concentrated crystals of real percolated coffee. And that's exactly what Maxim freeze-dried coffee is-fresh-brewed coffee without the water. These waterless crystals stay fresh until you're ready to use them. They need absolutely no refrigeration and can be kept right in your kitchen cupboard.

Different from any other form of coffee. You can tell at once that Maxim is unlike any other coffee you have ever used. Take a spoo ful, and you see golden brown crystals that ac-tually sparkle. Smell them, and you smell the rich, roasted aroma of freshly percolated coffee.

Turns your cup into a percolator! The real miracle happens in your cup. The mo-ment you add hot water Maxim's concentrated crystals explode into real percolated coffee. Maxim actually turns every cup in your house into a percolater! No pots. No grounds. No instant taste!.

Important-you need less per cup! Because Maxim's crystals are concentrated, you use less per cup than you'do with any other form of coffee. For each cup, just use a level teappoon (more or less to taste). You'll find it's surprisingly thrifty to use Maxim!

Discover Maxim-America's first Freeze-Dried coffee.

Get Maxim soon. Try it and see if you can deoet maxim, soon. If it and see it you can de-tect a difference between Maxim and the good coffee you've been brewing in your percolator! You'll get the surprise of your coffee-loving life! Discover Maxim—America's first Freeze-Dried coffee-new from Maxwell Hou

One 4-oz. jar of Maxim makes as many as one pound of ground coffee,

Electric cars are coming back!

And if that's what you want in a new car, we'll loan you the money to get it. At the lowest possible rates, too. From Impalas to Thunderbirds, thousands of Des Plaines area residents have financed new cars

Every loan transaction is strictly a private affair with personalized service provided by Bud Bruhn, John Crim, Larry McDonnell and Lisa Mogensen. They will insure fast action on your loan and let you know its exact cost. There are no hidden charges. Repayments are scheduled to fit your budget in periods up to 36 months. Credit life insurance is available for your specific needs.

If you haven't heard, steam cars may be coming back, too. But whether you prefer electric, steam or gas vehicles, First gives you the best loan at the lowest rates in town.

Adventures In Reading

With winter approaching many families will be speeding their evenings reading a good book. Today, thanks to paperback editions and the convenience of fihraries, many people who may have curtailed a formal education are taking the opportunity to broaden their hackgrounds in such subjects as mythology. Illerary characters and legends.

legends.

Many colleges are taking a similar interest in the pre-college student by preparing suggested reading lists which will broaden his general knowledge of various periods and familiarize him with a

Now! We pay and compound earnings quarterly on both passbook savings and savings certificates.

All the things that money can buy now happen faster than ever when you save at Bell Savings. Earnings on both Passbook Savings and Savings Certificates are paid and compounded every three months. And both earn the highest

legal rates in Chicago. What's more, the mini-mum for a 6 month Bell Savings certificate is just \$7500. Savings at Bell are insured safe and backed by over \$500 million in assets. And if a new home is on your mind, ask about

Bell's 1/10% Mortgage Interest Rate Plan which assures you of the most equitable rate at all times. Open 8:45 to 6:00 Monday through Friday.
